

“From the first pulses of Ariel's Attic introduction chops to Jenn Hailey's power vocals listeners should fasten their headphones tight to their head for lift off. Bob Ross, Mike Olson and Gary Campbell create the perfect intensity that continues to build through the arrangement, a perfect foundation for their deeply intellectual lyrics to find a home with Miss Hailey's vocals.”

— Toni Taylor-Helser, DJ at Mixstream Radio, April 5, 2018

“The vocalist, Jenn Hailey, has an extremely beautiful voice. The musicians accompanying her are equally talented, and the melodic technicality of them can be heard throughout the CD...Fans of Nightwish and Within Temptation will like this band.”

— Heather Litter, Adrenaline-Armory, review of Garden of the Gods, July 7, 2018

“...there's something about Ariel's Attic's music that just drew me in and I had to have it. Everything I've heard from them I love. We want more. These guys and gal deserve everything they get in the way of success because they really put out some great music.”
